

User Guide: Data Fetching Agent Application

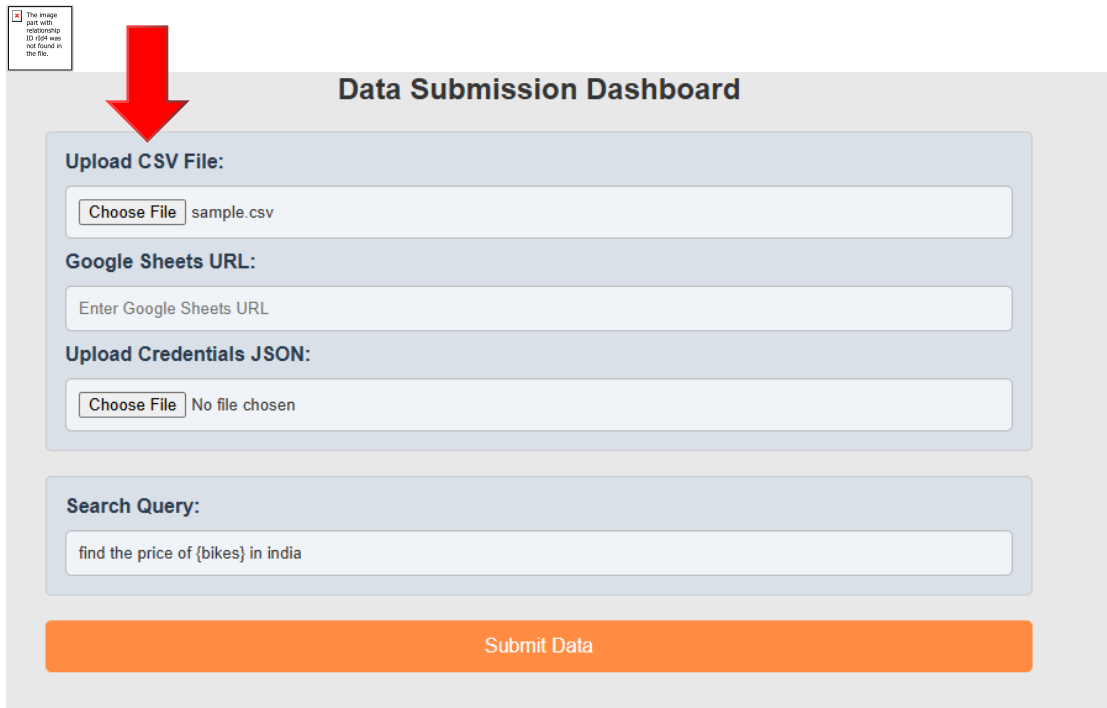

1. Introduction

This application allows you to upload datasets in CSV or Google Sheets format, process them with an LLM, and download the results in CSV format.

2. Uploading Files

2.1 Uploading a CSV File

1. Click on the "Upload CSV" button.
2. Select a valid CSV file.

The image shows a web interface titled "Data Submission Dashboard". It contains several input fields and a submit button. A red arrow points to the "Upload CSV File" section. The "Upload CSV File" section has a "Choose File" button and a text input field containing "sample.csv". The "Google Sheets URL" section has a text input field with the placeholder "Enter Google Sheets URL". The "Upload Credentials JSON" section has a "Choose File" button and a text input field containing "No file chosen". The "Search Query" section has a text input field containing "find the price of {bikes} in india". At the bottom, there is an orange "Submit Data" button. A small error message in the top left corner states: "The image just with relationship ID 104 was not found in the file."

Data Submission Dashboard

Upload CSV File:

Choose File sample.csv

Google Sheets URL:

Enter Google Sheets URL

Upload Credentials JSON:

Choose File No file chosen

Search Query:

find the price of {bikes} in india

Submit Data

2.2 Uploading a Google Sheet

1. Click on the "Google Sheets" button.
2. Authenticate your Google account.
3. Select your Google Sheet or enter its URL.

Data Submission Dashboard

Upload CSV File:

Choose File sample.csv

Google Sheets URL:

Enter Google Sheets URL

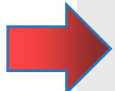

Upload Credentials JSON:

Choose File No file chosen

Search Query:

find the price of {bikes} in india

Submit Data

3. Processing the Data

Define the query for entities you want to get results of.

Example: find the email of {company_names} in india

Choose File sample.csv

Google Sheets URL:

Enter Google Sheets URL

Upload Credentials JSON:

Choose File No file chosen

Search Query:

find the price of {bikes} in india

Fetching in progress...

4. Downloading the Results

Click on "Download CSV" to save the results to your system.

Data Frame

Search for content...

	bikes	query_result
0	Royal Enfield classic 350	The price of the Royal Enfield Classic 350 in India is listed as ₹ 1,99,500 in the text.
1	duke 290	The text does not provide the price of the Duke 290 in India directly. It mainly focuses on presenting the features and specifications of the KTM 390 Duke.
2	GT 650	The price of the GT 650 in India is not directly provided in the text. However, it can be inferred that the bike has recently been launched in the Indian market as of March 16, 2023. To get the current price of the Royal Enfield Continental GT 650, you may need to check the official website of Royal Enfield or contact an authorized dealership in India.
3	NS 200	The price of the Bajaj Pulsar NS200 in India is not explicitly mentioned in the provided text. However, it is stated that Bajaj offers 13 more Pulsar models starting from ₹85,861. For the most accurate and up-to-date pricing information, it is recommended to visit the official Bajaj website or contact an authorized Bajaj dealership.
